My success has excited the malice of the envisors and My success and extension have served only to extend along, but their persecutions have served only to extend and establish my reposition. In regard to the efficacy of the "AMTE DE PEMME," I need only say, that it is in tiguil form, and is exactly such as I have used in my practice in France, for many years and that it has never failed to secure a vatisfactory result.

The "Amis de Femme" and monstruction stand in the re lation of cause and effect. It is able powerful to originate a healthy menotrual flow where it never has suisted, and to restore it where it has been from any cause suppressed. THE POST OFFICE.-The Post Office, agreeably to announcement, was closed yesterday afternoon preparatory to having it removed to the magnificent new structure now finished. The office will be opened in the new location at 4 o'clock this afternoon, when the public will have an opportunity o seeing the inside of the most superb Post Office building in the West. Everything about the building and its furniture is of the very best workman ship and made of the most durable materials. The pigeon boles and drawers are constructed after the best and most approved patterns. The drawers numbering some 500, are provided with unpickable locks, the keys of which are so constructed that no two will unlock the same drawer.

We shall give a more detailed description of this model Post Office building in a future number of the Leader.

A RABE CHANCE FOR AN INVESTMENT !- By an advertisement in the organ of the headless ex-Postmaster, we see that 2000 pigeon holes, a lot of P-O. drawers, shelves, show cases, &c., can be purchased cheap. Now is the time for somebody to invest a few spare dollars. Why wouldn't it be a good idea to buy these traps and calamities and set up an opposition Post Office, in the old Building !-According to the Dealer of last evening, it is the only location for a Post Office in town. That being the case, it certainly would pay to establish another

office there. We also see in the same paper an advertisement of a "Leather Store For Rent," in the "old Post Office Building, on River street." On what part of River street is the "old Post Office Building situated, Mr. Ex-Postmaster?

OTHELLO'S OCCUPATION'S GONE !- Water street presented a forlorn appearance yesterday afternoon as the Post Office was closed for the last time upon that street. The principal attraction has departed from the street, and the side walks will be no more crowded with pedestrians, the males seeking the mails and the females following the males.

The Cleveland Post Office has been emphatically a migratory institution. It was located thirty years ago in a 10 by 12 room, in a two story brick building where the Johnson House now is. The Office remained there under the administration of P. M.'s Worley, Barker and Andrews, until the latter removed it to a building on Water street, on the site now occupied by Messrs. Crowell & Childs. When the Johnson House was erected, in 1845, the Office was removed into it under the administration of THE UNDERSIGNED. HAVING Col. T. P. Spencer. In 1849, when the late Danie M. Haskell was Postmaster, it was removed to the Herald Building, Bank street, where it remained until July, 1853, when it was removed by Mr. Gray

to its late position on Water street. The Post Office has now a fixed location, where it will undoubtedly remain for the next century ere the close of which, all who have seen the erec tion of the new building will have disappeared from the stage of life.

The correspondence between Com. Paulding and the authorities of Nicaragua, has recently been made public. Com. Panding's condent was received by the Government of that Republic, and by all the people of Nicaragua, with much satisfaction, because it is a signal and the people of Nicaragua, with much satisfaction, because it is a signal with the content of the cause it expesses a signal rebuke of aggression so bold, and unjust on the rights and Territory of Norangua.
